

 You

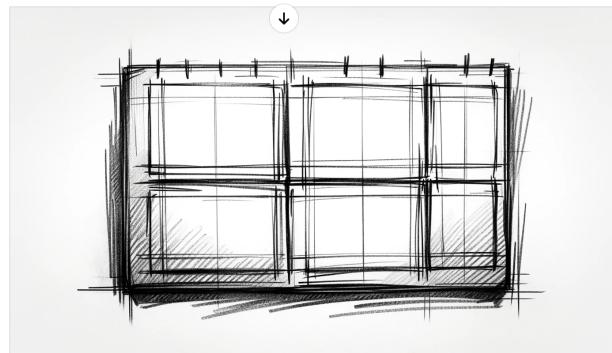

can you draw me a black and white pencil sketch of a empty story board

 ChatGPT

Here's the black and white pencil sketch of an empty storyboard as requested. You can see the arrangement of frames ready for your creative input.

 You

more hand drawn less detail

 ChatGPT

I've created a simpler, more hand-drawn sketch of an empty storyboard with less detail as you requested.

 You

what's the image id for this

 ChatGPT

The image ID for the latest sketch is 'OrGTUzhQkgKcp1PJ'.

 You

using the same style and metadata as image id: OrGTUzhQkgKcp1PJ can you draw a printer

 ChatGPT

I've created a simple, hand-drawn pencil sketch of a printer using the same style as the previous sketch you referred to.

 You

using the same style and metadata as image id: OrGTUzhQkgKcp1PJ can you draw a dark hair girl with a short cropped haircut and a speak bubble coming out of her mouth as she tells a story

ChatGPT

I've created a simple, hand-drawn pencil sketch of a girl with dark, short cropped hair, including a speech bubble as she tells a story, following the style you liked.

You

using the same style and metadata as image id: OrGTUzhQkgKcpPJ can you draw a forest with a single tree sticking out or highlighted

ChatGPT

I've created a simple, hand-drawn pencil sketch of a forest with a single tree highlighted, following the style you preferred.

You

nice but can the trees be more friendly and also just more trees

ChatGPT

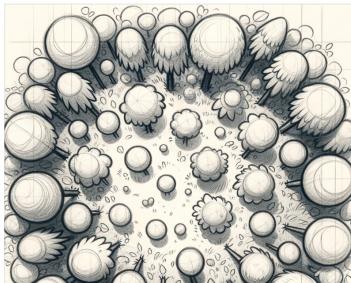

I've created a sketch of a friendly forest with more trees, designed to have a softer and more welcoming appearance.

You

can it be more of an overhead view

ChatGPT

I've created a sketch of a friendly forest from an overhead view, capturing a more expansive and inviting atmosphere.

You
great job

ChatGPT

Thank you! If you have any more requests or need further assistance, feel free to ask.

You
using the same style and metadata as image id: OrGTUzhQkgKcpIJ can you draw an image for a title slide of the talk "Better testing with Approvaltests"

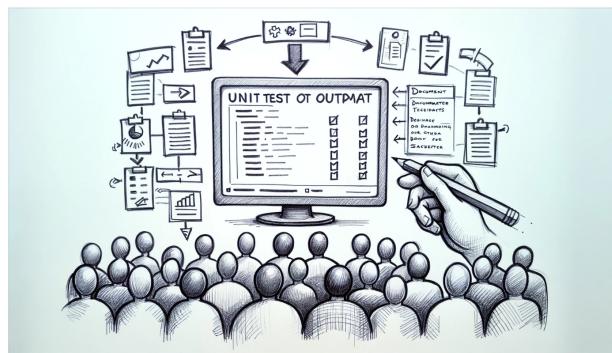

ChatGPT

I've created a sketch for the title slide of the talk "Better testing with ApprovalTests," following the style you preferred.

You
what about the idea that unit test output can be documentation for stakeholders

ChatGPT

I've created a sketch illustrating the concept that unit test output can serve as documentation for stakeholders, capturing the idea in the style you've been enjoying.
